

**AREA**

Dolomites - Tofane - Pomagagnon

**FACE**

East

**DIFFICULTY**

Medium

**TIME**

4 - 4,30 hours

**BEAUTY**

3

**NOTES**

No obvious danger.

**ASCENT**

120 m

**DESCENT**

420 m

**POPULARITY**

Low

**GEAR**

Normal equipment for winter walking, snowshoes and poles.

**INTRODUCTION**

Starting from Col Druscé this itinerary traverses to Passo di Posporca above the panoramic Val del Boite and continues along the beautiful Val Fiorenza down to Fiammes,

**GETTING THERE**

Cortina.

**ACCESS**

Take the Tofana di Mezzo cable car, located close to the ice stadium, to the middle station at Col Druscé and the refuge (1779m).

**DESCRIPTION**

From the middle station at Col Druscé (1779m) take the 411 towards Piè Tofana. This descent ends when it meets up with the road marked 410 at 1675m. Follow this off right, flat at first, then descending slowly, to another fork. Take path no. 409 towards Passo Posporca up beneath the rocky "Crepe de Cianderou" and the benches with magnificent view onto the valley below. Traverse without losing height towards Col Rosà and coast beneath the "Tonde de Cianderou", walking past a wooden cross. At Passo Posporca turn down right (east) along path no. 408, following signs for "Pian de ra Spines - Fiammes". This is perhaps the most fun section of the walk, as it zigzags quickly down to the river Boite. From here continue along the cross-country piste, taking care not to ruin the tracks, easily on to Fiammes.

**RETURN**

From Fiammes take the bus back to Cortina and the ice stadium.
