

Coston d'Averau

Hasta la Vista VII+/VIII-

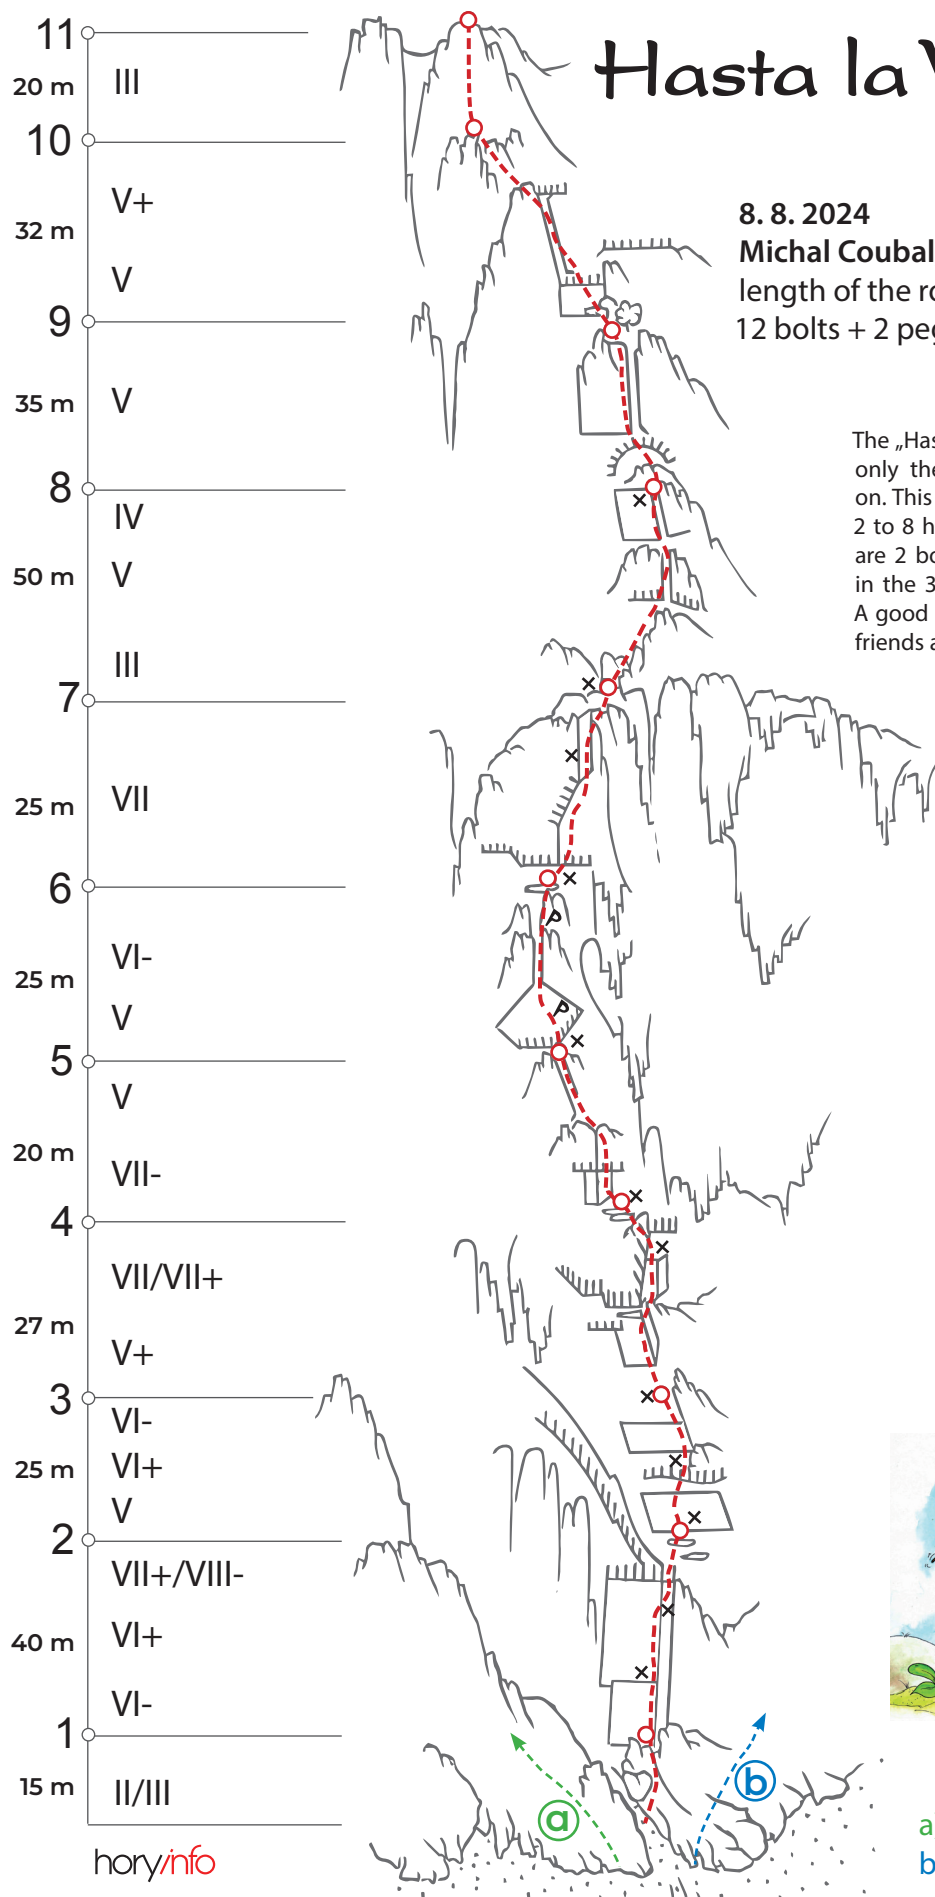

8. 8. 2024

Michal Coubal, Ája Coubalová, Martin Tučka

length of the route 314 m,

12 bolts + 2 pegs left in the wall

The „Hasta la vista“ route is mostly in solid rock, only the initial and final pitches require caution. This is not a sport route. Only belasy stations 2 to 8 have been fitted with a single bolt. There are 2 bolts in the 2nd pitch, and one bolt each in the 3rd, 4th and 7th pitches, for basic safety. A good assortment of pegs, mostly thin, a set of friends and stoppers are useful for any repetition.

a) Via Marina - F. Dallago

b) Via Battiti Lenti - 6a/b
